

SAP® Business One: Innovations and Enhancements for Greater Business Benefit

Run better with the new release of the SAP® Business One application, a single, **affordable application designed exclusively for small businesses** that want to fully integrate their business operations and grow profitably. Developed through strong co-innovation with SAP partners, the new release helps speed time to value, facilitates business adaptability, and increases ease of use and affordability.

Summary

The latest release of the SAP® Business One application offers significant enhancements to this already affordable and integrated business management software.

Business Challenges

- Find a fully integrated solution tailored to small business needs
- Accommodate the demands of a changing market
- Integrate software with partner applications and business services
- Extend software as needs change

Key Features

- **Redesigned user interface** makes using the software easier
- **Request-for-proposal functionality** enables faster, more effective sourcing decisions
- **Integration with SAP Crystal Reports® software** lets you design and deliver reports via the Web or embedded in enterprise applications
- **Universal code base** for 40 countries supports different time zones and helps you comply with legal requirements
- **Upgrade wizard** dramatically simplifies the upgrade process
- **Centralized authentication framework** enables better protection of customer data
- **Enhanced infrastructure** optimizes data archiving, transaction management, and memory governance
- **Remote support platform** improves diagnostics and troubleshooting
- **Solution packager tool** enables SAP partners to deploy add-on solutions more easily
- **Integration with on-demand Web services, cloud-based applications, and mobile devices** provides anywhere, anytime access to tools and information

Business Benefits

- **Higher productivity** based on a new user interface and intuitive system messages
- **Enhanced business control** with features to simplify accounting processes and adapt software to your needs
- **Simplified reporting and business analysis** with SAP Crystal Reports
- **Faster execution** through streamlined processes, application performance improvements, and a new data archiving tool
- **Lower total cost of ownership** thanks to the remote support platform, upgrade wizard, and SAP Business One Software Development Kit
- **Increased connectivity** for rapid integration of headquarters, subsidiaries, divisions, and third-party locations
